PRIVATE INDUSTRY CAPABILITIES STATEMENT

"We design and develop technologies into problem-focused solutions — delivering AI, robotics, IT integration, healthcare systems, and operational services for private organizations."

CORE SERVICES FOR PRIVATE INDUSTRY

Robotics & Automation (RaaS)

End-to-end robotic system deployment for hospitality, healthcare, facilities, and logistics. Fleet management, RaaS subscriptions, and uptime SLAs. Hospitality bundle: robots + POS + AI security.

Information Technology & AI/ML

Custom software, cloud-enabled platforms, AI/ML integration, data analytics, full-stack engineering. Delivered for healthcare, simulation, and enterprise clients.

Healthcare Technology & Staffing

Healthcare IT (EHR, PACS, AI records systems), clinical staffing, non-emergency medical transport, and managed care solutions for private clinics and MSOs.

Operations & Program Management

Operations management, supply chain support, logistics coordination, and strategic consulting for private organizations of all sizes.

Training & Workforce Development

Robotics operator training, simulation-based learning, IT training programs, and workforce upskilling for hospitality, healthcare, and technology sectors.

INDUSTRY SECTORS WE SERVE

Hospitality & Tourism

Service robots, POS integration, housekeeping automation, and guest experience technology for hotels and resorts.

Facilities & Janitorial (EVS)

Autonomous floor cleaning, UV disinfection, deep-clean services, and EVS fleet management with >=95% uptime SLAs.

Healthcare & Medical

Clinical technology, EHR systems, AI records, healthcare staffing, and AMR deployment for clinics and hospitals.

Education & Workforce Dev

STEM robotics curriculum, operator training programs, simulation software, and technology education partnerships.

Technology Partners: Dell | Microsoft | Cisco | Lenovo | Ingram Micro | Carahsoft | Pudu Robotics | Keenon | Avidbots | Doosan | Lumana AI | Partner Tech | Pecan POS

PAST PERFORMANCE

HEALTHCARE & TECHNOLOGY

Metro Health of Orlando — Non-emergency medical transport operations since Oct 2013 (contractual since inception)

MH Geriatrics Management — Customized AI Medical Records System for managed care population.

Twisted Ceptors LLC — Healthcare software development & secure medical imaging system.

OnMIMIC / PACS Platform — Cloud-based medical imaging and diagnostic report system

ROBOTICS / COMMERCIAL PILOTS

Orlando International Airport (MCO) — Avidbots autonomous cleaning integration (NDA signed, active)

UCF / Orlando Health AIMS — Surgical staple tracking robotics integration pilot (active)

UCF TRT Servi — Restaurant robot deployment, hospitality pilot (active)

FEDERAL

VA Prime Contract 36C77620C0002 — HUMs & Standardized Patient support, VA SimLEARN/Redi, Base + 3 Option Years

VA FSS #36F79719D0266 — Schedule 621 I Healthcare Staffing.

U.S. Army OTA #W900KK-18-9-0012 — Prototype Performer under 10 U.S.C. §2371b; OASIS Small Business Pool 1 & 3 — Prime slot awardee (Lukos Technologies team).

TEAMING PARTNERS
